Stability AND Permanency

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or "get-rich-quick" concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

The Publishers of this Directory

Elwood Street and Avenue Guide

All lettered and named streets arranged in alphabetical order, numerical streets follow in their sequence.

All streets running east and west number from First street, all streets running north and south number from Main street, the dividing line.

The guide shows only names where numbers are used or at street corners.
