Note.

Map of the Industrial District
of the City of New York, showing
the location of the various
factories, workshops, and
other industrial establishments,
with a description of the
nature of the work done in
each, and the names of the
owners and managers.
This map is intended to be
used in connection with the
Industrial Directory, and will
be found of great value in
determining the location of
any particular establishment,
and in ascertaining the
nature of the work done in
it.

THE DIAMOND PLATE GLASS CO.
This is a plan of the Diamond Plate Glass Co. showing the location of the various buildings and the layout of the works. The plan is based on a survey made in 1892 by J. H. Smith, and is intended to show the general arrangement of the works and the location of the various buildings. The plan is not intended to show the exact dimensions of the buildings or the exact location of the various rooms, but it is intended to show the general arrangement of the works and the location of the various buildings.
