Burma

Dearest Mary,

I just finished eating supper - we had Vienna sausages and cheese, sweet-potatoes, green beans, beets, pineapple, and hot chocolate. I hope we have some more steak pretty soon; we have been getting it almost every week the last month.

I wrote a letter to Russ Harper today. He is in Moss. Guarding war-prisoners. He told me that he saw you when he was home on furlough. He never mentions Wanita in his letters, I was just wondering about that!

I went to the movie last night and it wasn't worth my time. Brazil was the name of it, I think I told you that in last night's letter, though. About one out of ten of our movies are worth seeing.

No mail came in today.

I love you, Mary

Dear Mary,

I just finished eating supper - we had Vienna sausage and cheese, instant potatoes, green beans, kielbasa, pineapple, and hot chocolate. I hope we have some more steak pretty soon, we have been getting it almost every week the last month.

I wrote a letter to Russ Harger today. He is in Miss. guarding war-prisoners. He told me that he saw you when he was home on furlough. He never mentions Walter in his letters, I was just wondering about that!

I went to the movie last night and it wasn't worth my time. Boogie was the name of it, I think I told you that in last night's letter, though. About one out of ten of our movies are worth seeing.

I love you, Mary.
